This index is in two sections. The Subject Section is an alphabetical subject section index to Articles, and such features as Research Reporter, Researcher's Bookshelf, and Research Q and A. Geographic entries are listed by some cities, states or provinces, or countries. The Name Section is alphabetical by surname of author; if author has more than one given name, initials are used, e.g., Smith, John; Brown, I. M. The following abbreviations are used: **(bk rev)**—book review; **(ed)**—Editorial; **(GE)**—Guest Editorial; **(QA)**—Research Q and A; **(RR)**—Research Reporter; **(L)**—Incoming Mail.

Note that the subject headings are the same as those used in **International Nursing Index (INI)** and are based on the Medical Subject Headings published by the National Library of Medicine. A "Nursing Thesaurus," which lists nursing headings commonly used with referrals to the headings used in **INI** and in the annual indexes of **Nursing Research, Nursing Outlook, American Journal of Nursing,** and **MCN, The American Journal of Maternal Child Nursing,** is published each year as part 2 of the first issue of **INI** and is bound in the fourth and cumulated hardcover issue. Copies of this Thesaurus are available from the Editor, **International Nursing Index,** 555 West 57th Street, New York, New York 10019. Price $2.00.

NURSING RESEARCH is published six times a year by
American Journal of Nursing Company, New York, New York 10019
